## All Your Scheduling Needs

The Athletic Scheduler facilitates the scheduling of athletic contests and the sharing of that information with all concerned individuals simply and easily. With the Athletic Scheduler, you will be able to create contest and practice records, calculate the logistics for each, assign transportation & officials, and roll contests over from year to year. Athletic Scheduler produces detailed Master Schedules for all school departments, Contracts for opponents, Change Notices, and Weekly Reminders for coaches, officials and opponents.

## Customizable

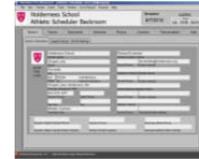

Created in Filemaker Pro, the Athletic Scheduler is completely customizable to your needs and shared on your school network. You have complete control to create your own fields and layouts for the information that is important to your specific needs. I am available for customization. (Requires Filemaker Pro 13 or above, not included)

Filemaker Pro Educational Prices.  
<https://store.filemaker.com/US/ENG/EDU/ent>

## Backroom

The Backroom will supply all the necessary information for the Logistics Calculator and for creating and emailing information to your school's offices and opponents. The Athletic Scheduler comes with the most recent NEPSAC schools information and a set of most common teams installed. Schedules, coaches, officials and players can be imported or entered by hand.

## Grid Views

You can view your schedule and practices as you see it on the Schedule Layout, but also in a grid format. On the Grid layouts, you can view, add and edit contests. Special dates appear in amber and the name of the special date appears in the box in the header to alert you to unusual restrictions.

## Calculating Logistics

After entering your contests, you can calculate the logistics for each contest on the Schedule layout. Based on the information you entered in the Backroom, Athletic Scheduler

will calculate the Dismissal Time, Pre-Game Meal, Departure Time, Return Time, and Post-Game Meal for each contest in seconds. Logistics can be calculated as many times as you want, until you have it right.

## Mark B Perkins

I have worked in Independent Schools for 45 years as a teacher, coach, and administrator. Having been an athletic director, dean of students, and headmaster, I have firsthand knowledge of the needs of each office. I served as President of NEPSAC in 1983-84. With a math and computer science background it was natural for me to develop database solutions for my schools. I have been programming in Filemaker Pro since 1995.

## Rick Eccleston, Holderness School, says:

*"The Athletic Scheduler software has done wonders for communication and logistics from my office. The easy to use functions and reminders have allowed our office to run more smoothly and efficiently. The best part has been the customer service. To have someone who designed the software on the other end of the phone to walk you through the system is invaluable. Mark was very patient with me and listened to what I wanted out of the program. I honestly would not be able to run our department without it."*
