Athletic Scheduler+ uses Google Gmail API to send emails. In order to authenticate your email address you must first get your credentials (Client Id and Secret). To do this follow the instructions below (Thanks to dbservices for these instructions (paraphrased here and SeedCode).

1) Go to the Google Developer Console , sign in to Google using the Organizational G Suite Account option (if you haven't done so already), and create a project and give it a name such as "Athletic Scheduler" Then click on Create.

2) Click "ENABLE APIS AND SERVICES" and search for Gmail API. Click on it and this will bring up the API.
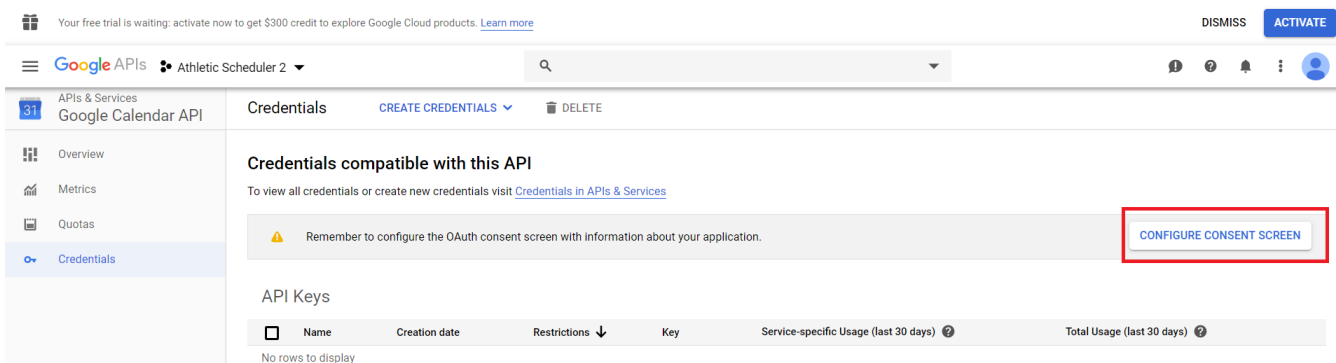

Click "Enable" if it has not yet been enabled.
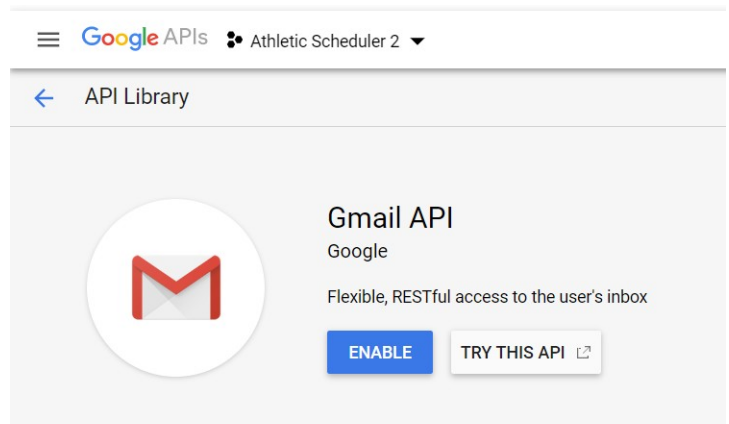

Using the menu in the upper left hand corner, select APIs & Services, then Library. Now find Google Calenda and repeat the process.. Click on it and click on Enable if it has not yet been enabled.
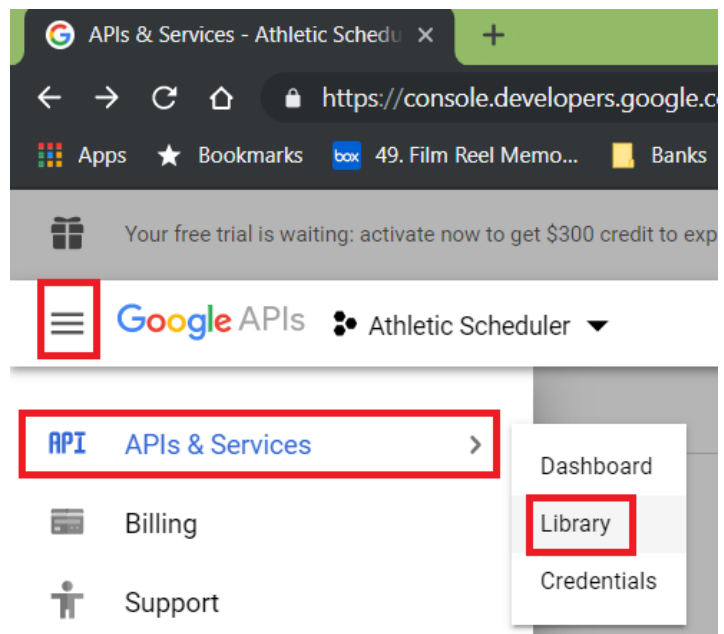

3) Click menu navigation on the top left, go to APIs & Services->Credentials and click on "Configure Consent Screen."
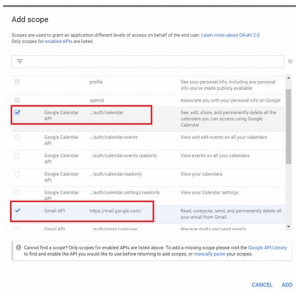

4) Select Internal. Give your product an application name. This is what the end user will see when authorizing your solution to manipulate their email.

You can upload a school logo if you want, but it is optional.

Enter your email address.

Add Gmail and Google Calendar scopes by clicking on "Add scope" Find the Gmail and Google Calendar scopes and check both.
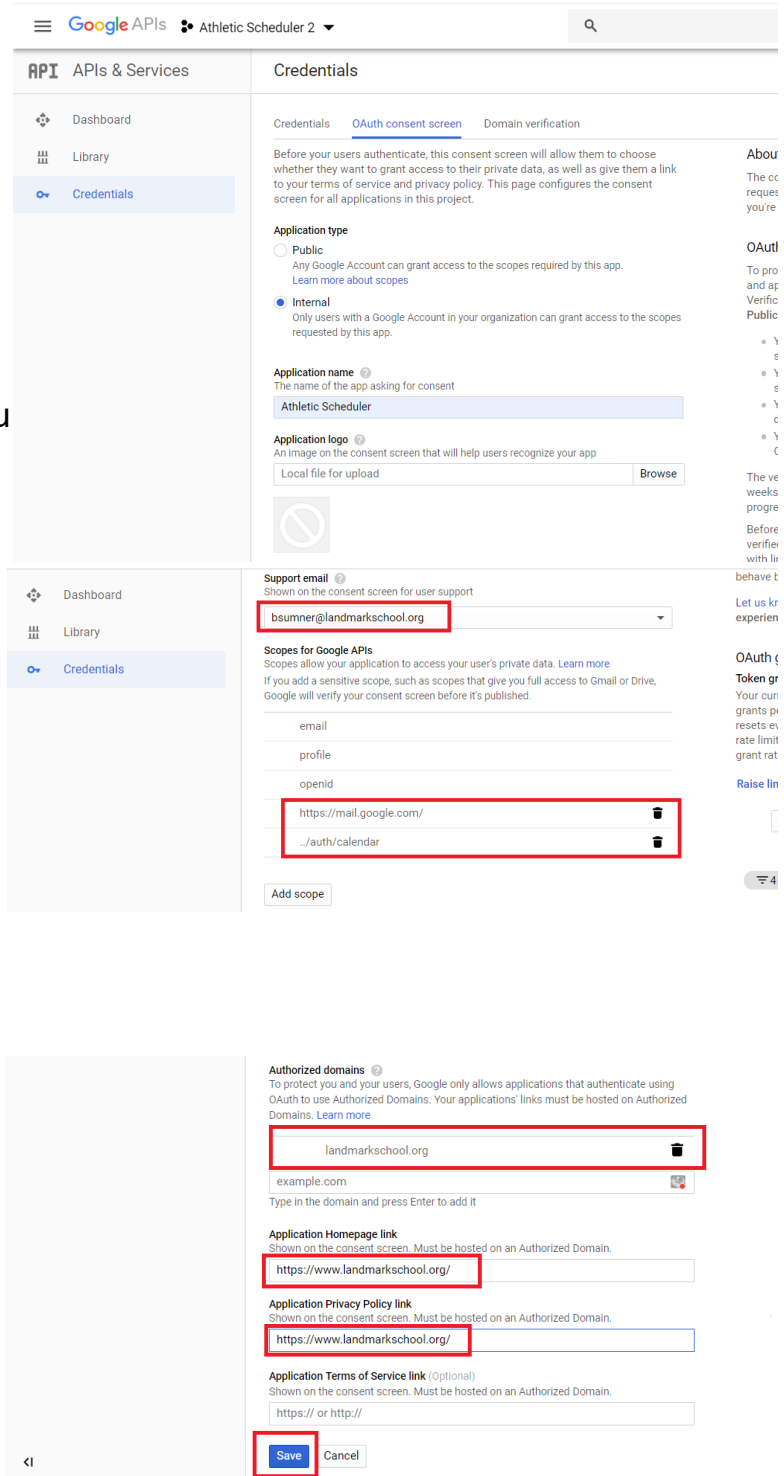

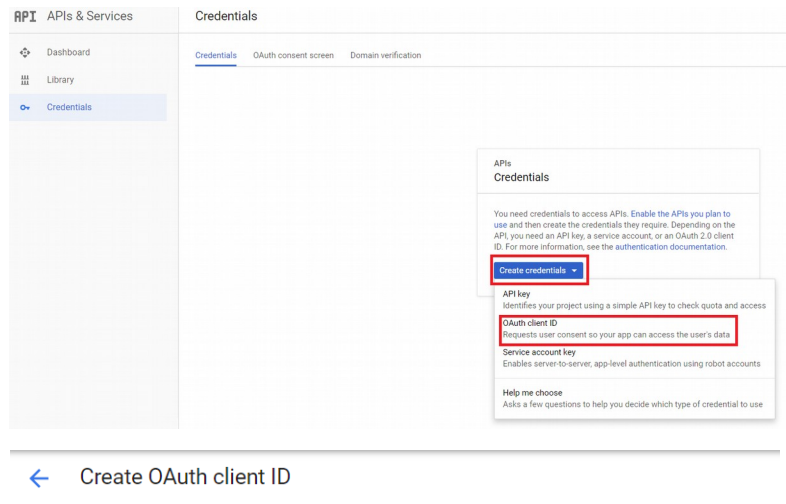

Enter your school's domain name.

Enter your school's website address in both Homepage Link and Application Privacy Policy Link fields.

Click on "Save."

5) Now we are ready to get our Credentials. Click on "Credentials" on the menu on the left.

Then, click on "Create Credentials." Select Oauth client ID.

Select "Web application."

Set a name for the Client ID.

Set the Authorized redirect URI It is important that the redirect URI matches your school's website address exactly.

Click on "Create."

6) Copy your Client ID and Client Secret to be entered into the Athletic Schedler+ later and click "OK."
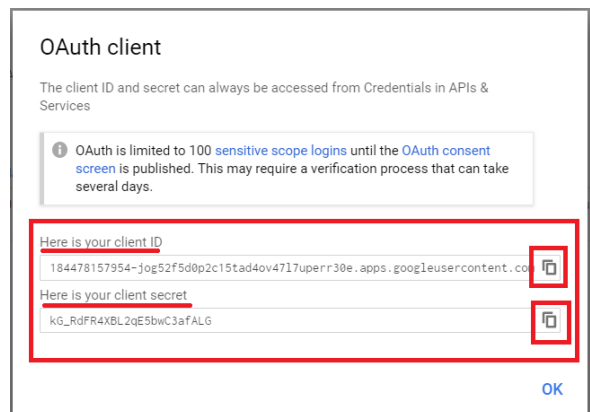

You should have created your credentials similar to the one below. Bookmark this webpage in case you need to return to it. Get your Client ID and Secret by clicking on the Name.

7) Return to your Athletic Scheduler+ and enter your Client ID and Secret along with your school's website address on the School>Sending Email Accounts>API>OAuth Credentials tab.

Now you are ready to authenticate your emails.

Don't hesitate to contact me if you need some help with this.
